Dear Senator Feinstein,

I called your office today to ask for your support for the Employee Free Choice Act.

I wanted to follow up on my call in writing, to urge you to support the Employee Free Choice Act, which will help build an economy that works for everyone.

The system is broken and working people are struggling to make ends meet today and the middle class is being squeezed. One way to help average people get their fair share is to let them bargain with their employers for better wages and benefits.

We must give workers a voice in the workplace and allow them to bargain collectively.

Thank you for your support,
